NEXT REUNION AT GREENSBURG

Survivors of 123rd Indiana Volunteers Elect Thomas Havens of Greensburg President

23 COMRADES ARE PRESENT

Annual Meeting Closes With Campfire Monday Night, With Address by Judge Sparks

The thirty-first annual reunion of the 123rd Indiana Infantry, was held yesterday in the assembly room of the court house, with twenty-three comrades and twenty-nine ladies present. A very enjoyable time was spent by the old soldiers present for the reunion which opened at ten o'clock in the morning and closed with the campfire meeting last evening.

The morning session was given over to registration and receiving the badges. At noon the W. R. C. royally entertained the old comrades with a delicious dinner at the Windsor Hotel.

At 2:30 o'clock the afternoon program opened with a business meeting and the reading and acceptance of the treasurer's report. On motion of the president, Luther Downey, of this city, that a tribute be given to Chaplin Miller and other departed comrades, the veterans and guests present stood with bowed heads. During the business session Comrad Taylor Meek of Greensburg extended an invitation for the reunion to be held in that city next year. The invitation was accepted, and on motion of Comrad Lyons of Greensburg, it was decided to hold only a one day meeting with a campfire at night.

The officers elected for next year are as follows: President, Thomas Havens of Greensburg; first vice-president, Taylor Meek of Greensburg; second vice-president, James Black of Greensburg; third vice-president, Dave Lyons of Greensburg; chaplain, Taylor Meek of Greensburg; secretary-treasurer, Mrs. William C. Morgan of Rushville.

Mr. Meek of Greensburg gave a splendid talk when he accepted the chaplain's post. A vote of thanks was also extended to the Rushville hosts and hostesses for their splendid hospitality and for their efforts in making the reunion a success. Comrade W. P. Marlatt of Winchester, gave a talk expressing regret that he could not stay for the night meeting. Other talks were given by Comrade Harlan of Thornton; John Coulthard, Harrison, Ohio; Dave Lyons, Greensburg, pertaining to their army life. Mrs. Ida Lee of this city also gave a very interesting talk which closed the afternoon.

TO INVITE CITIZENS TO THE EXPOSITION

Courier Car Committee Coming to Rushville Wednesday to Extend Invitation to Event

IN INDIANAPOLIS OCT. 10-15

The courier car committee, which has been organized in Indianapolis for the purpose of advertising the Indianapolis Industrial Exposition, to be held at the state fair grounds October 10 to 15 inclusive, will arrive in Rushville Wednesday morning at nine o'clock, according to a letter received today by Mayor R. F. Scudder from Henry J. Raymond, Jr., general chairman of the committee.

The committee, it is presumed, will come to the city building, and the mayor and other Rushville citizens will be present to greet the visiting men and to extend them the courtesy of the city.

The exposition officials organized the courier car committee to undertake a number of automobile trips to various cities of the state, to present in person to the citizens of each city through the mayor and commercial organizations, an invitation to attend the exposition.

INDIANA STATE PLANT IS READY

First Seed Wheat Will be Treated Wednesday by County Agent

County Agent D. D. Ball stated today that the seed wheat treating plant was all ready for operation and the first wheat would be given the hot water treatment in the morning. It is hoped that all seed wheat can be treated before the middle of October, but the farmers are not taking advantage of the early dates. All dates for the remainder of this week are filled, but County Agent Ball stated that many more people could be accommodated at the plant next week.

Wheat should be brought in the day before it is to be treated, as it has to be prepared. The plant is located in the old heating room, near the jail.

GRAND JURY BEGINS THEIR GRIND TODAY

Three Day Session Expected in Order to Take up Matters Coming Before Them

MANY WITNESSES CALLED

The grand jury began their investigations this morning, and there were many witnesses summoned for the opening day. It is the first time the grand jury has met this term of court, and there is a possibility of a big lot of indictments being returned.

Witnesses were summoned today for the most part from near Knightstown and northern Rush county, and there were a few people from Rushville before the investigators. The sessions are conducted privately by Prosecutor Stevens and the six investigators. On account of the large number of witnesses, the session may last three days before adjournment and a report is made.

It is expected that a great portion of their probing will be devoted to criminal cases on which arrests already have been made, as the state can prosecute cases on grand jury evidence better than on affidavits.

NEWS SURPASSES ALL EXPECTATIONS

Cole Oil and Gas Co. Receives Word of New Strike in Which Oil Stands 800 Feet

TO CONTINUE OPERATIONS

The stockholders of the Cole Oil and Gas Company of this city who are operating in Darke County, Ohio, for oil, have received word from the field that surpasses their most sanguine expectations.

The company has drilled in its second well and today received a telegram from W. C. Disher, whose farm they have leased and upon which the well is located, as follows: New Weston, O., 9:25 a. m. Sept. 27, 1921.

Megee and Newbold, Rushville, Ind. Eight hundred feet of oil in well this morning. Flowed some time last night. W. C. DISHER.

11:14 A. M. The members of the company in this city are very much pleased over this strike, and expect to continue operations in this field as rapidly as they can.

LOCAL MAN INVESTIGATES

Robert T. Humes of Indianapolis, formerly of this city, who is in charge of the state motor police created under the state certificate of title law, has been sent to Fort Wayne by Ed Jackson, secretary of state, to investigate the arrest of T. MOTOR TRAVEL IS MADE SAFER

Motorists Observe Efforts Which Are Being Made to Prevent Accidents on Highways

TEMPORARY CROSSING SIGNS

New Law Provides For Warning Signs 300 Feet From Each Railroad And Interurban

Motorists in this county who have been traveling about the country this fall, have noted the many signs which have been erected to safeguard people travelling on the public highways and have commented on the effect which has been made to prevent automobile accidents.

The work to make travel by motor safer is being done by the Hoosier State Automobile association, but it must of necessity be slow because the expenses of the project are paid out of the membership fees of the association. Thus all automobile owners get the benefit of that which only a small percent pay for.

The state association has not limited its work to danger signs at railroad crossings, but has erected warnings at all dangerous curves and at other points where accidents are likely to result unless care is exercised by the driver.

The most helpful sign, according to motorists who have observed the methods being used to prevent automobile accidents, is the one which has been erected a few hundred feet from each railroad crossing on all of the state roads in Rush county. This is regarded as especially beneficial because it warns the motorist to slow down and stands as a constant caution against approaching a railroad crossing at a high rate of speed.

The railroad crossing signs are of much greater benefit than those which have been in vogue for many years. They stand on the railroad right-of-way and are really of no benefit because they are generally seen by the driver too late to avoid an accident. The signs erected by the automobile association are not very substantial, but it is expected they will serve the purpose until the provisions of a law passed by the last legislature and approved on March 10, 1921, are carried out.

This law provides that the public service commission, within thirty days after the law takes effect, shall have adopted a uniform warning signal which shall be erected 300 feet from each railroad crossing in the state in each direction from the point of intersection of the highway and the steam or interurban railroad. The statute says the danger signs shall be uniform in appearance, character, size, material, color and lettering, shall be securely set in concrete on the right hand side of

DEMOCRATS DIVIDED OVER GERMAN TREATY

Meeting of Senate Minority Breaks up Today Without Taking Definite Action

TO MEET AGAIN THURSDAY

Washington, Sept. 27.—A sharp division of opinion on the German peace treaty among the democratic senators developed today at a party conference which broke up without definite action on what attitude to take on ratification.

Democratic Leader Underwood announced that another meeting would be called for Thursday to discuss the pact. Before the conference there will be a discussion of the published report that Former President Wilson was backing the fight against the treaty in the senate. Democrat senators denied that Wilson was backing the fight.

Wilson is known to have told friends who urged him to make some statement on the acts of the administration, that the Republicans "were having trouble of their own" and that he wanted to keep out of it.

STELLAR WITNESS TESTIFIES TODAY

Evidence in Divorce Suit Involving Connersville People Continues Here Today

CASE OF LOCKE VS. LOCKE

Husband of Woman Named in Suit Tells of Settlement Locke Made With Him

The star witness for the plaintiff in the sensational divorce suit in which Emmogene Locke is seeking a divorce from Anthony Locke, Connersville people, occupied the witness stand this morning, as additional evidence was being introduced before Judge Gates Ketchum, who is hearing the case in the Rush circuit court.

The case began here yesterday, and will probably not end until sometime Thursday, as approximately 40 witnesses in all will be used during the progress of the trial.

Clyde Edwards of Connersville, one of the stellar witnesses for Mrs. Locke, related to the court this morning his testimony as to the conduct of his wife with the defendant in this case, and it is upon these grounds principally that Mrs. Locke is seeking a divorce.

Mrs. Edwards was named in the complaint as having been the woman with whom her husband had become infatuated, and whom he had taken with him to other places and stayed as husband and wife.

The witness stated this morning that they have since been divorced, and that prior to the divorce, on December 4, 1920, he saw Mr. Locke and Mrs. Edwards get into the Locke machine and drive away. Mr. Edwards followed in another car, he said, and pursued them to the country, where the Locke machine stopped on a side road.

Mr. Edwards said that Locke did not know he was being pursued and was surprised to have the husband of the woman whom he was with appear upon the scene at that time. According to the witness, Mr. Locke took out his check book, and wanted to "square things" on the spot.

The witness said that he told Locke to go back to the law office of W. E. Sparks in Connersville and they would adjust the matter, but according to the witness, Locke nor Mrs. Edwards, did not appear as agreed.

Mr. Edwards in his testimony said further that a settlement was reached after he had filed suit for the alienation of his wife's affections. The settlement was made he said, whereby Locke gave him a piece of property, paid the attorney fees, and gave him \$250 cash.

The property at the time the settlement was made was

KETCHAM ASSAILS THE KU KLUX KLAN

National Commander of G. A. R. Refers to Organization as Being Form of Anarchy

INDIANA HOST FIFTH TIME

Indianapolis, Indiana, Sept. 27.—For the fifth time Indiana is host to the nation's Civil War veterans—an honor held by no other state, according to William A. Ketcham, commander-in-chief of the Grand Army of the Republic, meeting here with its allied organizations.

In his annual report delivered today, Commandant Ketcham commented on the "commendable patriotism" of the state and city which he said had made unusual efforts to provide hospitality for the Grand Army.

He assailed the Ku Klux Klan as being a form of anarchy.

"We shall see to it," he said, "that any organization with so offensive and discredited a name should not be permitted to invade state lines where we still have influence and strength. We ought to set our faces flint against all the evils of the modern day Bolshevism, I. W. W. ism, Ku Klux, whatever their name may be."

FIRST IN NEW CLUB ROOMS

American Legion Post Will Meet on Friday Evening

Rush Post 150, American Legion, will hold their first meeting Friday night in their new headquarters over the Dixon Millinery store in West Second street, and all members are urged to attend. Business of importance will come up at the meeting, including the matter of furnishings for the new rooms. Plans also will be taken up concerning the benefit ball game which will be played Tuesday between the Rotary and Kiwanis clubs for the purpose of donating funds to the Legion for assisting in furnishing the club rooms.

The meeting Friday will be called at 7:30 and each member should attend.

BLACKBIRDS SAID TO HAVE MIGRATED

Many Rushville People Expected to be at Ease—Summer Pastime Frightening Them Away

SEEN AS SIGN OF WINTER

The blackbirds are reported to have migrated and many Rushville people are now expected to be at ease.

The summer evening pastime in many sections of the city is to make all of the noise possible to prevent blackbirds from spending the night in shade trees. All sorts of devices have been in operation this summer to frighten the pests away. Bells and other noise-making apparatus have been installed in trees and one ingenious citizen installed an electric light in a tree in front of his house, which has proved the most successful of any of the schemes to keep the blackbirds away.

The migrating of the blackbirds is regarded as a sign of an early winter. The atmosphere was very chilly today and there was a fall "feeling" in the air.

Monday morning was thought to be the coldest of the early fall season, but reports from many points in the county indicated there was no frost, though frost was reported from many sections of the state. Local residents say there is no frost with the temperature at forty-eight degrees, which was the lowest reported here.

SEAMAN DROWNS IN SINKING OF U-BOAT

Electrician Missing From R 6 in Watertight Compartment With 48 Hours Air Supply

DEAD SEAMAN COULDN'T SWIM

(By United Press)

Los Angeles, Calif., Sept. 27.—One drowned and one partly drowned was the authoritative casualty list given the United Press today by Rear Admiral Stickney, commander of the Pacific fleet train following the mysterious sinking of the United States submarine R 6 at San Pedro.

The official list was: drowned, R. Dreffon, seaman; missing, Vincent Spaulsberry, electrician. The body of Dreffon was rescued by the life savers. He could not swim and he sank in a suction of the waves. Spaulsberry is in a water tight compartment in which he was caught when the boat sank. He can live for 48 hours on the supply of air in the compartment, it was said.

Divers worked today attempting to recover bodies of two sailors believed to have been lost when the R 6 sank to the bottom of San Pedro harbor.

Eighteen other members of the crew had miraculous escapes. No explanation of the mysterious accident was offered today by naval officials pending convening of the board of inquiry.

WILL NOT ACCEPT ANY CUT IN WAGES

Railroad Workers of Nation Will Desert Posts of Duty Rather Than Take Reductions

OPINION OF UNION LEADERS

No Unauthorized Walkouts Will be Tolerated, They Declare—Gather to Canvass Vote

(By United Press)

Chicago, Sept. 27.—Railroad workers of the nation will refuse to accept wage reductions recently ordered by the United States railroad labor board.

Rather than do so, they will desert their posts of duty, high officials of the Brotherhood of Railway Trainmen gathered here for the official canvass of that organizations strike vote, believed today.

But no authorized walkouts will be tolerated, the union leaders decreed. All men must remain on the job until a strike call is issued.

The trainmen's ballots thus far opened show overwhelming spurned the new proposals. Vice President James Murdock, acting head of the union during the illness of President W. G. Lee, declined, however, to predict the percentage of members favoring a strike.

A 100 percent vote among the 186,000 trainmen, employed on class one railroad, paying under the provisions of the railroad boards award, was brought out, Murdock told the United Press. This class embraces all of the country's principal lines. Tabulation of the trainmen's ballots, he said, would be completed by Monday.

Members of the other three of the "big four" brotherhoods—the Brotherhood of Railway Conductors, the Brotherhood of Locomotive Engineers and Firemen and the Brotherhood of Switchmen, back the trainmen in their stand, union officials asserted. Canvass of the ballots of these organizations will start here October 3rd.

Members of the Federated Shop Crafts already have voted overwhelmingly in favor of a strike, B. M. Jewell, head of the railroad department of the American Federation of Labor has announced.

The shop crafts following precedent will take no separate action, it was said. The Crafts will await the decision of the four big brotherhoods believing it folly to act alone.

Railroad officials who would not permit themselves to be quoted, said they expected labor troubles in the future.

"I believe the unions will quit

DEFENSE HOPES TO FREE FILM COMEDIAN

Assaults on Character of Witnesses Testifying Against Him on the Program

BLACKMAIL CHARGES LIKELY

(By United Press)

San Francisco, Sept. 27.—By ruthless assaults upon the character of witnesses who testified against Roscoe Arbuckle, charged with the alleged murder of Virginia Rappe, the defense which was to open today, hoped to secure the freedom of the film comedian.

Sensational charges of blackmail, hints of "white powder" and hooch, of intimacy between state witnesses were expected.

The spotlight of searching cross examination was to be turned on the testimony, lives and character of Mrs. Bambina Maude Delmont, the "avenger" of the dead Miss Rappe; Al Sennacher who gathered the dead girls clothing to "clean an automobile" and the other witnesses upon whose testimony District Attorney Brady depended for a conviction. Not a seat was expected to be available for men when the court opened at ten thirty. The club women who have thronged the court were expected again to overflow the benches into the "cage" where prisoners sit and even to the extent of crowding the aisles.

LODGE TO BE GIVEN ONE 'LAST CHANCE'

Western and Middle-Western Republicans Will Allow Him Another Opportunity

TO PROVE HIMSELF A LEADER

Test Majority Head Must Pass is Speedy Disposition of Administration Program

By L. C. MARTIN
(U. P. Staff Correspondent)
Washington Sept. 27—Senator Lodge is to be given one "last chance" to prove himself an effective leader of the Republican majority in the Senate, a number of determined western and middle-western Republicans have decided.

If Lodge fails to pass the test, reorganization of the present leadership is certain, these senators declare. This reorganization would rob Lodge of everything but the courtesy title of leader.

The test Lodge must pass, according to dissatisfied Senators, is speedy disposition of the administration's important legislative program including the treaties of peace, the tax and the tariff bills and railroad refunding bill.

If any change in leadership is made it probably will be about the time Lodge is forced to relinquish some of his Senate duties to devote his attention to the disarrangement conference.

Dissatisfied senators think the leadership reorganization is inevitable if public business is to be attended to promptly.

They pointed out these facts today in support of their belief.

That, with the administration program hanging fire, Lodge permits the fight on the anti-beer bill to be resumed to the exclusion of other business.

That Lodge's lack of aggressiveness threatens to let opponents of the administration's treaties with the Central powers subject the Senate and the country to long delay in settling the peace terms.

Lodge has already indicated a willingness to discuss reservations.

That Lodge as majority leader, and Chairman of Iowa, as president pro tem are both too old for the duties of leadership.

SAYS RUSSIA FACES ANOTHER BAD FAMINE

Soviet Director of Relief, Declares Farmers Have Been Unable to Get Seed For Planting

PRODUCTS SOON CONSUMED

By EDWIN HULINGER
Moscow, Sept. 27—Russia faces another famine—which will come next year and will reap death among the poor of the provinces with even more swiftness than it did this year.

This was the prophecy of M. Kamenoff, the soviet director of famine relief, expressed in an exclusive interview with the United Press today.

Kamenoff declared the farmers had been unable to obtain sufficient seed for autumn planting.

"The 1920 harvest was entirely consumed by the middle of October. Thereafter the Volga district gave absolutely nothing. Everything we ate had to be imported from the other provinces of Russia where the harvests were only 45 percent normal," he declared.

* NEW YORK STOCK MARKET *

New York, Sept. 27—A heaviness of industrials and oils characterized the early trading on the stock market today.

Mexican Petroleum opened off at 99 1/2 and then dipped to 98 1/2. Atlantic Gulf was off at 27 1/2. Asphalt again was an exception to the trend in oils and opened up at 52 1/2.

Baldwin made a new low on decline at 86 1/2, off 3/4. Steel common also lost 3-8 at 79 1/2.

The rails acted somewhat better than the rest of the list. New Haven Southern Pacific and Union Pacific were all fractionally higher.

Opening prices included: New Haven 15, up 1/8; Southern Pacific 79 1/2, up 1/8; Southern railways 21 1/2, unchanged; Utah 89 1/2, unchanged; American Smelting 36 1/4, off 1/4; Atchison 86 1/2, unchanged; Texas Co. 35 1/2, unchanged; Reading 72, unchanged; Union Pacific 121 1/4, up 1/4; Studebaker 74 up 1/4; Corn products 77 1/2, off 1/2.

Three Eastern Divisions Vote Against Censuring Howat

Indianapolis, Ind., Sept. 27—Three eastern union divisions voted more than two to one in the United Mine Workers convention here today to suspend international administration in the fight against Alexander Howat, insurgent leader in the Kansas mine district.

Western and Central Pennsylvania and Scranton voted 686 to 302 in favor of declining to support the international executive board in censuring Howat for refusing to call off two outlaw strikes in Kansas.

WORKERS BLAMED FOR UNEMPLOYMENT

R. J. Phelps Tells Conference Ide-
ness is Due to Men Refusing to
Accept Reductions

WON'T TAKE WORK DON'T LIKE

(By United Press)

Washington, Sept. 27.—The workers themselves were blamed for widespread idleness in the United States as the national unemployment conference started its investigation.

R. J. Phelps, director of labor statistics of the Massachusetts labor department, told the committee on unemployment statistics, that refusal of workers to accept reduced wages was one of the causes of the present emergency.

Another reason why so many are idle, especially in Massachusetts is because workers won't take jobs they don't like, he said.

Exhaustion of savings is forcing idle men to take work now at reduced pay, Phelps said.

Last May, he testified, there were 36 men for every job in Massachusetts; now the ratio is 13 to 1.

KILLS WOMAN HE LOVED

Carl Brown, 27, Confesses to Indianapolis Police After Murder

(By United Press)

Indianapolis, Ind., Sept. 27.—"I have been in love with her for eleven years and I decided to kill her," Carl Brown, 27, walked into the police headquarters here today with that statement shortly after his landlady Mrs. Atha Paris, 27, had been found mortally wounded in her kitchen.

"I grabbed her by the hair and cut her throat," he said. Mrs. Paris's throat was cut with a butcher knife and one of her arms was almost severed. Brown had been watching her stir a cake, it was said.

Brown has been a semi-invalid for a year, neighbors said.

work just after Thanksgiving," said one official. "This would tie up the Christmas rush of traffic with a view of forcing the roads to accede to labor's demand."

The U. S. railway labor board was today in the position of most mediators—without friends on either side of the controversy.

Labor leaders refused today to comment on the defiance of the board by the Pennsylvania, in which that road said in substance it would decide things with its own employees and not appeal to the board for decisions and mediation.

Time after time unions have issued statements attacking the board. In labor's opinion judging from past statements of leaders it is believed that the board has failed to give workers their just dues.

This feeling came to a head when the board ordered a 12 percent slash in wages \$400,000,000 from the workers' collective pocket books—which became effective July 1.

Railroad managements at the time were bitter because they said, the cut was not big enough. Workers said they should not have been cut at all.

The railroad board is powerless to punish those who do not abide by its decisions. All it can do is to make public its findings and depend on public sentiment to back it.

IDLE RETURN TO WORK IN ENGLAND

Overcomes Business Debacle and
Now Enjoys a Consistent Week-
by-Week Business Improvement

HALF MILLION ON PAY ROLL

However Number of Workless is Still
Sufficiently Large to Cause
Considerable Worry

(By LLOYD ALLEN
U. P. Staff Correspondent)

London. (By Mail).—England is steadily overcoming the overwhelming business debacle of last May and June, when the ugly threat of anarchy was everywhere mentioned in connection with the bitter coal strike and is now enjoying a consistent week-by-week business improvement.

It's a long uphill climb back to the position of twelve months ago, even. But with the characteristic British dogged faith in the future, the country is slowly straining back to normal.

Surest indication of remarkable recovery are Ministry of Labor statistics on unemployment.

Official ministry reports show that over half a million workers have been placed on pay-rolls since mid-June. However, the number of workless at this moment is still sufficiently large to cause everyone considerable worry.

A brief glance at the official figures, however, shows the seriousness of the position in June, and the extent of improvement already registered.

On June 24 (the high point of British unemployment) there were 2,177,899 workers absolutely idle and over half a million on part time.

For August 19 the latest available official figures show 1,640,000 workless with less than half a million part timers.

In other words, the workers are gradually being absorbed back into productive work at the rate of between 20,000 and 40,000 weekly.

These figures includes many women and girls, as well as boys. Classified into the sexes, the workless of August 19 are as follows:

Men	1,422,400
Boys	61,100
Women	290,000
Girls	47,000
Total	1,640,500

Meanwhile, the miners themselves are not enjoying their wartime prosperity. Some 100 mines are idle and 20,000 miners are workless.

England is beginning to hope that the great crisis of strained relationship between capital and labor passed when the famous Triple Alliance—composed of railway workers, transport men generally and coal miners—failed to function in producing a general strike that would have halted most of the activities of national life.

And there is further hope—encouraged by the attitude of responsible labor leaders themselves—that the regime of the "hot heads" in the labor movement has ended, or at least been so thoroughly discouraged that the resumption of a long era of industrial peace and general prosperity will, ere long, be ushered in.

Your Good and Ours

As you wander along the high-ways and the byways of this town it is possible that you see many things which you think should not be.

Do you ever speak of these things to people who have the power of correction?

Does it occur to you that their absorption in other cities may have caused them to overlook some of the things that are so plain to you?

Do you realize that their brains plus yours are more potent than their brains alone?

Every man owes a duty to the community that shelters and sustains him. That duty is to aid in the advancement of the welfare of the community as a whole.

Calling attention to undesirable conditions is not necessarily a reflection upon the constituted authorities. One pair of eyes can not see everything, neither can one brain master everything—and the Lord does not provide any man with more of either.

It may not be possible for the authorities to make a prompt correction of conditions you report, as there is a limit to their possibilities. But your report will impress them upon their minds, and in time they may be able to afford the desired relief.

This community has reached its present state of desirability through the efforts of all of our people. It will become even more desirable as we bend additional efforts to that end.

Speak up and be heard. Your criticisms are of no value until you make a noise.

It is for your good and ours.

About the laziest person we ever heard of is the fellow who died from indigestion rather than go to the trouble of chewing the food he ate.

It isn't always true that the right hand knows not what the left hand does. It frequently occurs that each knows that the other does nothing.

If you don't like your neighbor and want him to move, begin telling your troubles to him each day. He'll soon get enough.

Why dread the winter months that are approaching? They only emphasize the anticipation of another spring.

Foolish people take things as they come, but the wise man takes only the things to which he is entitled.

Never mind what others think of you. If you don't measure up in your own estimation what can you expect of them?

Many a man spoils a good joke by furnishing his own applause.

National Notables on Red Cross
Convention Program Oct. 4 to 8

COLUMBUS, O.—(Special).—To focus attention of the nation at large on the fact that it has a peace time program, fully commensurate with its wonderful war achievements, the American Red Cross has called a convention to be held in this city Oct. 4-8, at which will be presented a program of such outstanding importance in the way of personnel as to challenge attention with the biggest conventions held anywhere in years by any civic or military body. Beginning with President Harding, who has accepted an invitation to address the opening evening session, business of state permitting, the list includes military, civic, educational and international importance. The cabinet will be represented by Herbert Hoover, who will speak on "The Challenge of Childhood in Foreign Lands." The military will be represented by General J. J. Pershing, the navy by Assistant Secretary Roosevelt, and the Marine Corps by Major LeJeune.

Governor Harry L. Davis of Ohio will extend a welcome, followed by Mayor J. J. Thomas, while Dr. W. O. Thompson, President Ohio State University, will be one of the several prominent educators, including Dr. Livingston Farrand, President-elect of Cornell University, Dr. Henry Noble McCracken, President Vassar College, and Miss Charl Williams, President National Education Association.

Other outstanding features of the program, which contemplates three sessions daily, are: "Juniors at Work in Our Insular Possessions," W. W. Marquart; "The Future Builders of the Nation," Senator Frank B. Willis, Ohio; "The Red Cross in Disaster," Robert S. Gast, Pueblo, Colo.; "The Red Cross Public Health Nurse," Miss Lillian Wald of New York; "The Red Cross and the Nation's Health," Dr. W. A. Evans of Chicago, and "Volunteer Service," Mrs. Eleanor Robson Belmont, New York.

Addresses on topics to be assigned are expected from J. G. Emery, National Commander of American Legion; W. Frank Persons, Vice Chairman American Red Cross; Miss Alice Fitzgerald, director of nursing, League of Red Cross Societies in Switzerland; Dr. Albert Ross Hill, Vice Chairman in charge of foreign operations, and, if possible, General Allenby of the British Expeditionary Forces.

Bringing the program to a dramatic and spectacular conclusion, will be a pageant written for the occasion by Ruth Mougey Worrell, visualizing the history and development of the Red Cross work and its vision of the future. It will call into service 2,500 uniformed and costumed participants, and a trained chorus of 1,000 voices supported by a band or orchestra of more than 50. The pageant will be given in the Coliseum, where the major meetings will also be held, in an auditorium capable of seating 10,000 persons.

Current Comment

Fundamental Principles
(From Washington Post)

Attorney General Daugherty has a sound sense of values. He shows his knowledge in his speech delivered before the joint session of the American Bar Association in Cincinnati. When he declared that without respect for law, life, liberty and property are insecure, he uttered a solemn truth.

Every crime wave, every deed of violence, every concerted attack on law and order, every open flouting of the statutes and authority, if it goes unpunished and unheeded, tends to weaken the structure of national life. Obedience to the laws of God and man must be taught and practiced, else there will be a gradual decline in civilization, as is glaringly shown in Russia today.

The laws of this country are of the making of the people themselves. The people can unmake them, just as they made them. If they are dissatisfied with any existing statutes, they have an easy and effective remedy in the ballot. There is no need for them to violate laws when they can so readily, if it is the sense of the majority, change them to suit themselves. Meanwhile, as the attorney General points out, all laws must be enforced for as he says: "The Government will endure on the rock of law enforcement or it will perish in the quicksands of lawlessness."

He Couldn't Bridge The Gap

"A good many ladies were disappointed this afternoon." "How was that?" "The guest was spoken of as a bridge expert, and he turned out to be nothing but a famous engineer."

UNION'S RATE TO BE LOWER

Reduction of 13 Cents in Total Levies in Township for 1922

Union township's local tax rate for 1922 will be thirteen cents less than it was this year, instead of the same, which is contrary to the announcement in the Daily Republican last Saturday. It was stated then that the rate would be 75 cents, the same as this year. It develops, however, that an error was made and that the total local rate will be only 62 cents. The error was made in the road tax levy, which was reduced from 21 to eight cents for next year. This decrease of thirteen cents, represented the net decrease on the total levy because the increase of five cents on the special school fund levy was counter-balanced by reductions in the tuition and school bond fund levies.

The road tax reduction did not effect the rate in Glenwood as residents of the town do not have to pay road taxes.

SQUARES AWAY FOR BIG TEN SEASON

Dr. H. L. Williams of Gopher Football Pack is Still Fighting "Ineligible Jinx"

HAS A STACK OF HOPE

Trainer Will Have to Pick Most of His Team From Last Year's Subs—Few Expected Back

Minneapolis, Sept. 27—Still fighting "ineligible" jinx, Dr. H. L. Williams, of the Gopher football pack, is squaring away for the Big Ten season with new cards in the deck, and a stack of hope.

Just as Arnold Oss, flashed across the horizon to football fame in the last two years, so will another Gopher star be heralded in 1921 says critics.

Earle Martineau, flashy end, will be eligible this year, and sport writers are predicting he will make a big name for himself this season. Martineau was ineligible last year, but he will be in the game next month.

Arnold Oss, all round athlete and king pin of the Minnesota machine last year, will be back in the game. Undoubtedly he will be at his best. It is his last year in the school.

Gus Eckberg, husky, smashing full-back may not be eligible. There is some dispute however and he may yet get to play.

Captain Teberg will head the 1st of those returning, and will probably play his old tackle position.

"Tryg" Williams, however, will have to pick most of the rest of his team from last year's subs. Among them are: Fred Atwood, Lee Burr, George Fraser, Marshall Webb, John Gillen, Jack O'Brien, George Cooper, Donald Cole, Gilbert Larson and Paul Hartwig.

GIVEN FLORAL HORSESHOE

Former Rushville Boy Honored When He Wins Race at Freemont, O.

Clayton Dagler, son of William Dagler and formerly a resident of this city, was presented with an immense floral horseshoe at the San-lusky county fair at Freemont, O., last week, when he won the 2:20 trot for three-year-olds with Evelyn the Great, the feature race of the day's card, last week, according to a clipping from a Freemont paper received here.

Dagler took the first two heats in 2:16 and 2:15, each of which was hotly contested by Clyde the Great, which won the third heat by a nose in 2:17. Evelyn the Great holds the world's record for three-year-olds on a half-mile track. The floral horseshoe was presented by Charles Hochendel, secretary of the fair association, who also introduced the winning horse and driver to the grand stand.

Yesterday's hero—Babe Ruth hit his 57th and 58th homers and a double, scored three runs and drove in two, giving the Yanks an eight to seven victory over the Indians and the series at 3 to 1.

King with a single and a double scored both runs which gave the lowly Philadelphia a 2 to 1 win over the Pirates.

Art Nehf held the slugging Card to five scattered hits and the Giants went nearer the pennant with a 4 to 1 victory.

Moore and Harris pitched shut out ball and the Athletics held the White Sox 6 to 0.

CHEER LEADER HELPS THIS MACHINE PROVES

Philadelphia, Sept. 27—If you're one of those persons who claim that cheering at a football or baseball game is wasted breath and energy, prepare yourself to be converted to the great throng who do the cheering.

There's a machine out at the University of Pennsylvania that proves, according to psychologists, that cheering does help a whole lot and in many cases may be the means of winning the game. Cheering brings out a last, almost superhuman effort on the part of the cheered, according to psychologists.

The machine consists of a little drum to which a marker is attached. To the marker is tied a string, the other end of which is tied to the finger of the subject. Then a 1,800 gram weight is also tied to the subject's finger, and he is instructed to lift the weight up and down until the finger can lift no longer. No urging or cheering is done the first time.

Then, during a second experiment, when the finger shows signs of fatigue, the subject is urged to "buck up, old boy, and show some pep!" and "just hold out for a while longer!" The markings on the drum show that the subject has been able to lift the weight many times more in the second trial than in the first when no cheering was done.

NEBRASKA TEAM HAS FULL HOUSE

Seventeen Veterans Will Return For School to Seek Places on Football Eleven

FRED J. DAWSON IS COACH

Followers of The University Believe Team This Year Will be a Big Winner

(By United Press)
 Lincoln Sept. 27—With seventeen "N" veterans scheduled to return for the opening of school next week, supporters in the U of Nebraska football camp are looking ahead to a winning 1912 campaign. A score or more of performers on last fall's freshman squad is also in prospect.

The coaching burdens this year will be assumed by Head Coach Fred J. Dawson, former Princeton varsity man, and his first assistant Owen Frank, Nebraska star halfback of ten years ago. Captain Clarence Swanson will pilot the team on the field.

Followers of the sport here believe a favorable omen in the situation this season is the promise of comradeship on the coaching staff. Although the team last year was potentially strong, the season's record was in some ways a keen disappointment. Absence of the "pull together" spirit on the coaches' part was blamed by many. It will be different this year, they say.

Cornhusker practice opens September 15. Missouri Valley conference rules prohibit "punishing the pigskin" earlier than that date and followers of the game fear it may prove a handicap in view of the fact that two of the Huskers' rivals this year—Notre Dame and Pittsburgh university—are to inaugurate their workouts well in advance of the Nebraska squad.

Nebraska meets the Catholics at Notre Dame October 22, and Pitt at Pittsburgh November 5.

The varsity squad, which enthusiasts claim bears every sign of a winning team, includes: Captain Swanson, Howarth, Scherer, Lyman, Ouelick, Wenke, Weller, Munn, Bassett, Triplett, Moore, Hartley, Wright, Thomsen, Russel, Hoy and Schopel.

GARY POLICE IS SHOT THROUGH HEART

Reserves And 500 Civilians Called Out Following Murder to Prevent Race Trouble

SLAYER IS NOT LOCATED

(By United Press)
 Gary, Ind., Sept. 27—Julius Gunther, a policeman, was killed and a negro was wounded in a shooting affray here last night. Officials are taking precautions against race trouble as a result of the shooting.

Gunther had entered the black belt to investigate a shooting. He entered a pool room where the negro was found on the floor wounded.

The policeman walked on through the room and pulled aside a curtain when a shot rang out and he staggered to the street where he fell dead shot through the heart. As a result of the affair, Mayor W. E. Hodges ordered out all the reserves and recruited 500 civilians.

The police with its reinforcements combed the section but was unable to locate the slayer.

MOSCOW TEAM IN PRACTICE

High School Expects to Put Winner in Field This Year

The Moscow high school basketball team is in practice now, and have good prospects for a winning team. The schedule is being completed and the first game will be played on October 7. Most of the players are young, but are fast on the floor. There are 15 or 20 boys who are turning out for practice and a good team is expected to be picked from that bunch.

R. B. Glenn is the coach of the team and is arranging games with the high schools in this vicinity.

NEW YORK TEAMS HAVE IT CINCHED

Giants Have Four Game Lead Over Pirates And Yanks Are Two Ahead of Indians

SPEAKER MADE A MISTAKE

Allowed Coveleskie and Uhle to Pitch to the Bambino and He Got Two Homers

New York, Sept. 27—New York looks today to be a certainty as the scene of the 1921 world's series. The Giants have a four game lead over the Pirates while the Yanks are two full games ahead of the Cleveland Indians.

The Giants need only two more games to cinch the pennant. They have one game with the Braves, one with the Robins and two with the Phils.

Pittsburgh has one left with the Phils and five with the Cardinals. If the Pirates lose two games out of the six the Giants will win without taking another game.

The Yanks have the pennant if they win three out of five remaining games—one with the Browns, three with the Athletics and one with the Red Sox.

The Indians have four games with the White Sox. If Cleveland loses one, the Yanks will need two more victories. If the White Sox hold the Indians even the Yanks will be in one more victory.

Even the great make mistakes. Some times the greatest make the greatest mistakes.

Two years ago about this time, Lee Fohl lost his job as manager of the Cleveland Indians because he allowed a hurler to pitch to Babe Ruth.

Yesterday Fohl, now boss of the St. Louis Browns, sat in the press box at the Indian-Yank game and saw Tris Speaker, his successor, make the same mistake, three times.

Speaker's slip of judgment practically cost the Cleveland Indians the American league pennant.

Coveleskie and Uhle pitched to

Ruth and the Bambino got two homers and a double, accounting for five runs.

Those five as it may turn out, gave the pennant to the Yanks. These Browns are going to take the Yanks today. Wait and see if Ruth gets a chance to hit one. Its suicide for a manager to let that Bam get a cut at one. I found that out long ago". Fohl said after the Yanks had taken the fourth game and the series three to one.

Fans agree that yesterdays battle was one of the greatest games of ball ever played. The Indians fought like maniacs until Steve O'Neil fanned in the ninth inning with two on and two out.

Fight as they did though the Indians couldn't overcome the Ruth handicap.

The "last stand" of the Indians in this series proved them the same great ball club of 1920 without the pitching that made them the worlds champions.

The Yanks in their victory stand as an example of what tremendous hitting can do even with mediocre pitching.

The long hinted at dissension between Manager Huggins and his players came to light as a reality in the eighth inning of the final game.

Waite Hoyt, hurt by a slashing liner off his bare hand and stung almost to a fury by the taunts of the Cleveland dug out, wobbled. Roger Peckinpaugh, captain of the club, and Babe Ruth ordered Hoyt to the bench and called in Mays. Hoyt threw his glove away and Mays was almost to the infield when Manager Huggins ordered Hoyt back. The Yanks all grumbled out loud. A few minutes later Huggins called Hoyt in. With a two game lead, the Yanks now have to win three out of their five remaining games to cinch the pennant.

Mr. and Mrs. Fred Woods had as their dinner guests Sunday at their home in West Fourth street, Mr. and Mrs. Will Robinson and Mr. and Mrs. Harry Drake and son William of Shelbyville.

The Bank of Workers of the First Presbyterian church will meet at the home of Mrs. M. V. Spivey, 715 North Jackson street tomorrow afternoon. Mrs. John Morris and Mrs. H. Rugenstein will be the assisting hostesses.

Mrs. Donald Ball was hostess for the members of the Tri Kappa sorority last evening at her home in West Ninth street. During the meeting arrangements were made for a benefit card party to be given in the near future for the county board of Children's Guardian. Delicious refreshments were served at the close of the meeting.

The Scholl family held a reunion Saturday in the Frank Scholl grove one mile south of Glenwood. One hundred and five persons were present for the first reunion ever held for this family. At noon a bountiful dinner was served and the afternoon was enjoyed socially with music and games. The Rev. George Scholl and daughter, Mrs. James Cattaloch, and two sons, George and Lechland, of Baltimore, Md., and Mrs. Charles Douthitt of Morgantown, Ind., were the only out-of-town guests present for the affair.

Mrs. Thomas Kirk will be hostess for the members of the Marion Social Circle of the St. Mary's church tomorrow afternoon at her home in West Third street. The assisting hostess will be Mrs. Charles Moorman.

The Always Present class of the Main Street Christian church will be entertained tomorrow evening at the home of Mrs. Lettie Jordan, 531 North Harrison street. All the members are urged to be present.

The second reunion of the Gregg family was held Sunday at the home of Judge Gregg near Orange. Eighty-five members of the family were present for the affair. At noon a bountiful pitch-in dinner was served. The following officers were elected for the coming year: William Gregg, of Connersville, president; George Hamilton, Greensburg, first vice president; Belle Gregg, second vice president; Charles Brooks, secretary, and Sue Gregg, treasurer.

Descendants of the Wilson family held their annual reunion at the home of Mr. and Mrs. John Wilson of Waldron Sunday. During the day a business meeting was held and the following officers elected: Frank Wilson, of this city, president; Mrs. Howard Carmichael, treasurer; Clyde Wilson, secretary. Those who attended were Mr. and Mrs. Frank Wilson and daughter, Mr. and Mrs. Charles Wilson and sons, Mr. and Mrs. Donald Wilson, Mr. and Mrs. Howard Carmichael, Mr. and Mrs. Robert Adams and son Melvin of this city, Mr. and Mrs. Bert Markland, Mr. and Mrs. Clyde Wilson, Henry Wilson, Mrs. Rhoda House and Arthur Green, of near Waldron.

NEXT REUNION AT GREENSBURG

ON TRIAL FOR MURDER

Terre Haute, Ind. Sept. 27.—Charles Guckelman, one of three men charged with murdering Vincent Weisneiski in a liquor holdup at Clinton last April, went on trial Monday. Luther Atterson and Harley T. Murphy, jointly accused with Guckelman will be tried when his case is finished.

New Philadelphia, Ohio.—Homer Henry, a farmer, was fined \$5 for unlawfully having skunks in his possession. "The skunks were scentless," he says.

AMUSEMENTS

Bebe Daniels at the Princess

Another sparkling comedy-drama was presented last night at the Princess Theatre, with Bebe Daniels, always a gay and dashing little figure, animating most of its scenes and will be seen again today.

The play is called "One Wild Week," and shows a youthful heiress before and after attaining her eighteenth birthday. Before that important date, she was dressed in gingham frocks of an 1890 model, and common-sense shoes. Not only was she denied pretty clothes by the waspish spinster who brought her up, but no fun nor friends were allowed.

Naturally, the girl, a spirited one, determines to "cut loose" the very day she attains her majority. She does. She buys herself all sorts of pretty clothes and starts off to visit a friend of her dead mother, in a nearby city. Things begin to happen on the train, and don't stop until the breezy heroine is proposed to by the handsome hero while both of them are clinging by their finger tips to a cornice several stories above the street level.

It is typical of the energetic young heroine that when the admiring young man goes to the girls' reformatory—yes, that's where her predicament lands her—to assure her that he will get her released, she ties him up with a strap and effects her own release then and there, climbing the high stone wall and riding gaily away in her would-be rescuer's own car.

A Strong Dramatic Photoplay

"If Women Only Knew," the new Robertson-Cole release, which will be seen again today at the Mystic, is one of the strongest dramatic photoplays of the year.

Throughout the picture the settings run the gamut of possibilities, ranging from the episodes of college days to the gay life of one of New York City's big hotels. E. H. Griffith, director of the picture, took his college shots on and around the campus of Cornell University at Ithaca, N. Y., and he chose wisely. Several interior settings include drawing rooms in mansions where the atmosphere of affluence predominates, and several shots of a good old-fashioned "homey" home.

The story tells of Maurice Travers, a youth whose widowed mother is scraping and saving to pay his tuition through Colburn College. Madeline Marshall, an orphan, the daughter of a close friend, makes her home with Mrs. Travers and Maurice. Maurice is fonder of athletics than study and fails in his final examinations for graduation. Donna Wayne, a pretty, shallow young girl, and the daughter of a wealthy trustee of the university, is infatuated with Maurice.

When the boy fails in his examinations, he and Donna plan an elopement, Donna believing her father will quickly forgive and give them financial aid. They run off to New York and are married. Donna's father follows and after seeing the marriage certificate declares he will have nothing more to do with them. From there on the story breaks rapidly from one dramatic situation to another, and finally reaches an intensely interesting and strongly worked out climax.

W. E. Sparks, an attorney in Connersville, also appeared as a witness for Mrs. Locke and told of his interest in the case. He told of a circumstance in which Locke threatened to sue him for black mail and that Locke said "he had hired some real lawyers in Indianapolis." The witness caused quite a stir in the court room between the attorneys, when he insinuated that the defendant didn't hire "real lawyers" for this case. Judge Ketchum was busy several times in making the attorneys keep to the subject as they frequently would attack each other with words.

HOUSING LAW TO BE EFFECTIVE

Statute Regulating Tenement Houses Will be in Force When State Director Takes Office

ON STATUTE SINCE 1913

Law Never Enforced For Lack of Money With Which to Put Officers in Charge

Indianapolis, Ind., Sept. 27.—The Indiana housing law, on the statute books since 1913, will be put into force October 1, according to W. F. S. Sharpe of Crawfordsville, newly appointed director.

The last session of the legislature appropriated \$15,000 for enforcement of the law for one year. The director supervision will be under the state board of health and will have one assistant.

The law is not retroactive Sharpe said. Owners of tenements not complying with the law cannot be forced to rebuild, but plans of new buildings may be ordered altered.

No definite program has been outlined so far, the director said, but an investigation of tenements in the larger cities of the state has been tentatively arranged.

Some of the provisions of the law are as follows:

Four hundred cubic feet of air space to each person.

No tenement higher than 1½ times the width of the street.

Backyards across entire width of lot. No yard less than 15 feet in length.

One window in each room open directly on street or open court all courts to be open to the sky.

No more than three stories in height unless fireproof.

Every one more than two stories must have running water. Each family must have access to running water without passing through apartments of other families.

Each tenement must have a sewer connection.

The law defines a tenement house as "a house or portion thereof which is leased or hired out to be occupied as the home of two or more living independently of each other, including flats and apartments but not hotels."

Penalty for violation is from \$10 to \$250 fine.

commissioners shall pay for the original cost of the signs, as well as maintenance costs, out of the county general fund.

TO LIVE IN PARIS

BERLIN HAS STRIKE OVER BIGGEST FILM

Berlin, (By Mail).—While American unemployed are objecting to the new plan of making American films in Germany, Teutons are kicking at the low wages paid them for their "acting" in these films. Their protests led to a strike.

The gigantic film, "Pharaoh's Wife," was to be taken outside the city—in the Maerkische Schweiz. Five thousand workless were taken on barges to the show ground, where the hosts of Pharaoh were to do battle. Enroute, the unemployed had been doctored with artificial sunburn and had been equipped with uniforms.

The "stage" was set for the battle. Many guests, including a corps of foreign correspondents, were present to see this—one of the greatest picture-making stunts yet undertaken in Germany. Then came the squeeze play against the direction—and the strike.

Suddenly the workless set up a cry—the Internationale—and demanded more money. One of their number, a Communist, harangued the warriors. They were being oppressed by the capitalists; the 60 marks offered them was insufficient for the day's "battling" in the sands of the Berlin suburban "Switzerland."

The film director, perspiring, mad, arose and offered the mob 75 marks (almost a dollar at the present exchange), but the Communist speaker

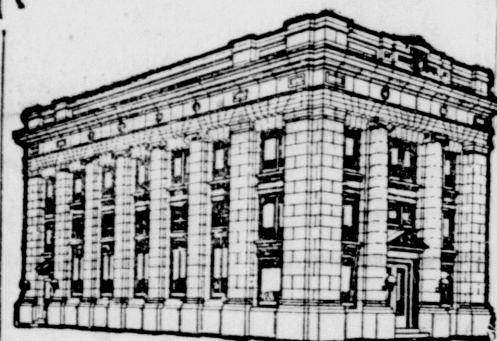

allowed that wasn't enough. Finally the director, evidently thinking of his outlays for staging the spectacle wilted and offered 100 marks, which the warriors accepted.

The American companies are saving three to four dollars per head by buying German labor, even at the high rate of 100 marks a day.

WOMAN CHARGED WITH 4 MURDERS

Lydia Southard, Female Blue Beard, Goes on Trial for Death of Fourth Husband

DEFENDANT IS 30 YEARS OLD

Husbands Died Soon After Each Marriage and State Alleges That She Killed a Baby

(By United Press)
Twin Falls, Idaho, Sept. 27.—Trial of the sensational case of Mrs. Lydia Southard, alleged "female blue beard" charged with murder opened here Monday.

The defendant is specifically charged with murder of her fourth husband, Edward F. Meyer, but the state alleges she also poisoned three previous husbands, Robert C. Dooley of Twin Falls, William McHaffie of Hardin, Mont., and Harlin C. Lewis of Denver and Billings, Mont.

It was from these charges that the appellation of "female blue beard" was bestowed upon her. In addition the state asserts she poisoned the two-year-old baby of her husband, and her brother-in-law, Edward Dooley.

A special venire of seventy men has been called.

The state had subpoenaed 137 witnesses and expected to summon several others.

Mrs. Southard is specifically charged with poisoning Meyer with arsenic obtained from poison fly paper a month after they were married on August 10, 1920, in order to collect \$10,000 life insurance which he is said to have taken out at her request. The insurance companies became suspicious and refused payment. Mrs. Southard disappeared and later that year married Paul Vincent Southard, a petty officer in the navy, in Los Angeles. Shortly afterward, he was transferred to Honolulu, where she was arrested and brought back to Twin Falls.

At the time of her arrest, Mrs. Southard expressed the belief that she was a "typhoid carrier," two of her husbands, a brother-in-law and her baby having died of that disease, according to the death certificates.

By the defendant's side when the trial opened were her husband, who had obtained a furlough, and her parents, Mr. and Mrs. W. J. Trueblood, who live on a ranch near Twin Falls.

In addition, officers of Twin Falls County alleged this mild-mannered little woman of less than 30 years, killed by the same method three other husbands and a brother-in-law.

Six months ago she was known only as a quiet little lady who served salads in a Los Angeles cafeteria. Today she was the center of one of the most remarkable of criminal cases.

Mrs. Southard was arrested in Honolulu after being traced from Los Angeles. Her husband, Paul Vincent Southard, who is standing strongly by her in the trial here, was a chief petty officer on board the U. S. S. Monterey, stationed at Honolulu.

Mrs. Southard represented in court by large staff of attorneys. Her defense, it was understood, is being financed jointly by her husband and her parents who reside on a farm near here.

The county prosecutor will charge that Mrs. Southard, urged on by a desire for luxuries, conceived the idea of doing away with her husbands as rapidly as she married them. In the case of Meyers, the prosecutor will attempt to show that she secured arsenic by extracting it from fly paper and placed this in his food, coffee and medicine.

She will be painted as a cruel murderess, who killed while she carressed.

The exact plan of the defense has not been made public. Mrs. Southard, while in custody at Honolulu, expressed in an exclusive statement to the United Press, a belief that she was a natural typhoid carrier and that each of her husbands died from typhoid fever, contracted from her. Physicians, on the other hand, were said to have examined her and reported she was not a typhoid carrier.

"I am not worried," Mrs. Southard has maintained since her arrest. "Why should I worry? My conscience is clear."

Many Human Ills Are Due To Impurities in the Blood

Pure, Rich, Red Blood Nourishes the Body and Fights Off Disease.

Waste Products or Impurities Cause Many Forms of Rheumatism, Skin Disorders and a Lowered Vitality.

How S. S. S. Clears the Blood of Waste Products.

Your system is continually taking in nutrition and throwing off waste products. This process goes on all during life. But, sometimes the organs do not properly function and these waste products, instead of passing out through the pores of the skin, through the kidneys and through the alimentary canal, are absorbed in the blood. Then the blood becomes poisoned, and cannot properly nourish the system.

Ill health sets in. You may lose your strength and vitality; or you may have rheumatic pains in the muscles and joints; or you may be troubled with bad boils, sores or some other skin eruptions. All because of the poisonous waste products in the blood. Nature now needs help. She has done her best but is failing. A blood purifier should be used at once to assist nature to throw off these waste products.

S. S. S., the standard blood purifier and system builder, is the ideal remedy in these cases. The effect of S. S. S. is to rid the system of the poisons which are causing the trouble. For over 50 years, S. S. S. has proven to be of unusual merit.

Get S. S. S. at your druggist. Use it strictly according to directions and write Chief Medical Director, Swift Specific Co., 721 S. S. S. Laboratory, Atlanta, Ga., and let him help you regain your health and strength. He is helping people every day. Ask him to send you his illustrated booklet, "Facts About the Blood"—free. S. S. BOOZE CRISIS PUT UP TO PRESIDENT

Moral Forces of Chicago Call Upon Harding to Intervene in Situation in That City

DRY LAW BEING VIOLATED

Federal Investigation of Liquor Traffic Has Been Under Way For Some Time

(By United Press)

Chicago, Sept. 27.—Chicago's booze crisis has been put up to President Harding.

Moral forces of the country's second largest city called upon the president to intervene in the situation caused by "the nullification of the eighteenth amendment."

Arthur Burrage Farwell, head of the Chicago Law and Order League following the admission of Police Chief Fitzmorris that half of Chicago's police force of 5,000 men are bootleggers, sent this wire to President Harding:

"Situation caused by nullification of the eighteenth amendment in Chicago intolerable. Prohibition laws are being openly violated. Crime is on the increase. Writing you in detail in regard to this critical situation. Moral forces of the city will leave to your excellent judgment what should be done."

Farwell, leader of Chicago's reform element since 1871, in a letter to the president will ask the executive to use his influence to induce congress to send an investigation committee to Chicago with power to subpoena witnesses and fix the blame for the nullification.

The situation came to a head when Charles C. Fitzmorris, youthful police chief, transferred 800 of his force and made a statement in which he said, half of the city's policemen are either bootleggers or are mixed up in illicit booze deals.

Federal investigation of the liquor traffic and the part played by Chicago policemen has been under way some time according to District Attorney Cline.

"Chief Fitzmorris may be better able to judge the extent of the liquor traffic within the department than we are," Cline stated. "In return for information we have gathered against policemen which we will furnish him, we will expect his fullest co-operation."

Chief Fitzmorris thus amplified his original statement today:

"Prohibition enforcement in Chicago is a joke. That statement not only goes for the police force, but for the citizenry.

"I'm going to divorce the police force from the illicit liquor traffic if I have to discharge half of the force. Farwell stated today that 3500 of the 5000 saloons in Chicago are selling liquor and beer openly.

"Never in my experience," said Farwell, who has been leader of the moral forces here for forty years, "have conditions been so rotten. The same thing obtains in all the large cities of the United States.

"The United States must run the big cities or the big cities will run the United States.

"When a police chief admits half

of the members of his force are gross violators of federal laws, then it is time for the federal government to intervene."

Chief Fitzmorris' statement and the call for federal intervention today failed to frighten Chicago's wet element into a drought. Liquor and beer was being sold openly in many bars of the city, according to reports.

DEFIES UNITED STATES RAILWAY LABOR BOARD

Pennsylvania Railroad Says Carrier Will Exercise Right to Deal With Own Employees

BOARD REFUSES PETITION

(By United Press)

Chicago, Sept. 27.—The Pennsylvania railroad has defied the United States railway labor board.

The railroad, in a letter signed by Samuel Rea, president of the road said:

"The carrier will exercise the right to deal with its own employees without the intervention of individuals or organizations whose manifest object is the denial of the fundamental right of employers and employees to deal in the first instance, directly with each other respecting wages and working conditions."

The railroad board refused the petition last week holding that union officials elected by employees of the road had a right to treat with the management on questions of wages and working conditions.

These are the questions on which the board granted a rehearing, but which the road refused to discuss: What employees not in the actual service of the carrier, such as those on leave, should participate in election of committees.

How representative capacity of unorganized employees shall be ascertained.

MAY INVADE CONFERENCE

New Cox's Army May Trundle Into Washington When Word is Given

(By United Press)

Washington, Sept. 27.—A new Cox's army riding in motor trucks is about to invade Washington and attend the unemployment conference. Urban Ledoux who sold unemployment labor slaves on the Boston pier, arrived here and announced that an army of unemployed would trundle into that city when he gave the word.

About one hundred representatives of jobless men from Boston, New York and Philadelphia, he said will come to Washington in motor trucks.
